DATA SHEET

EEL PASS FOR FLOODGATE

This rustic eel pass is adapted at the top of the floodgate. The slope of the crawling gutter is mobile; its downstream portion follows the fluctuations of the water level by dint of float. It supports the total lowering of the gate. The upstream hood protects the equipment.

ADVANTAGES

This eel pass is adapted to small differences lower in level than(0,80m) and for low flows (marshes).

PICTURES

Reference : FG1

TECHNICAL CHARACTERISTICS
