DATA SHEET

EEL PASS FOR RISING GATE

The rustic eel pass is fixed at the top of the sluice, which is regulated from 0.05m to 0.10m below the upstream water level. This eel pass can be provided to extension lead for adapted to the small difference in level (lower than 0,80m) and for low flows (marshes).

With gutter extension it could be adapted to higher obstacle.

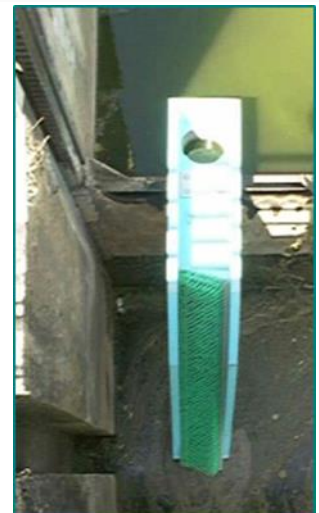

ADVANTAGES

This is a gravity eel pass which works without a pump. It is adaptable to many site configurations site. Prefabricated, its installation is easy and its cost is reduced.
